

STEM Teach offers graduate courses, degrees, and certificates in STEM education at **no cost to Indiana teachers or schools.**

Teachers can earn a credential to teach dual credit courses and/or expand their expertise to deliver instruction in STEM areas.

Dual Credit Credentialing:

- **Take online graduate courses** from participating colleges and universities to earn a credential in biology, chemistry, computer science, IT, math, physics, psychology, and technology
- **Complete a master's degree** in a content area or curriculum and instruction through program funding once 18 credits are earned in a content area

K-12 STEM Education:

- **Take online graduate courses** from participating colleges and universities as a K-12 teacher to earn a graduate certificate in Integrated STEM Education
- **Become an expert at infusing STEM education** into classroom lesson plans and daily instruction for any grade or subject
